Prof Daniel Bausch, MD, MPH&TM, FASTMH Geneva Graduate Institute, Switzerland & National University of Singapore

Prof Daniel Bausch, MD, MPH&TM, FASTMH is an American/Swiss physician-scientist trained in internal medicine, infectious diseases, tropical medicine, and public health.

He specializes in the control of emerging tropical diseases, with over 25 years' experience in sub-Saharan Africa, Latin America, and Asia combating viruses such as Ebola, Marburg, Lassa, hantavirus, and SARS coronaviruses.

He holds appointments at the Geneva Graduate Institute, National University of Singapore and London School of Hygiene and Tropical Medicine.

Previously he held positions as the Senior Advisor for Global Health Security at FIND (Geneva, Switzerland), Director of the United Kingdom Public Health Rapid Support Team (London, UK), Technical Lead of the Epidemic Clinical Management Team at the World Health Organisation (Geneva, Switzerland), Chief of the Virology and Emerging Infections Department at U.S. Naval Medical Research Unit No. 6 (Lima, Peru), Professor at Tulane School of Public Health and Tropical Medicine (New Orleans, USA), and Medical Officer at the U.S. Centers for Disease Control and Prevention (Atlanta, USA).

He is a past President and Scientific Program Chair of the American Society of Tropical Medicine and Hygiene. In addition to his contributions as a researcher and public health responder, Professor Bausch has a particular interest in economic, sociopolitical and governance underpinnings that make people vulnerable to outbreak-prone diseases.

He places a strong emphasis on capacity development in all his projects and has a keen interest in the role of the scientist in promoting health and human rights, striving to ensure that biomedical advances translate into better health for those most in need.
