Accommodation capacity

The HUG is the first university hospital in Switzerland to achieve the Smart Hospital label.

8

hospitals

30

health care centers spread
over the canton

2

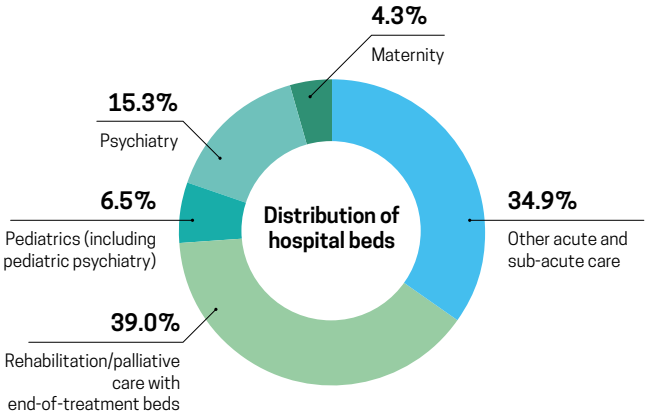

clinics

235,000

people treated

2,008

beds
(including end-of-treatment)

95.6%

patient satisfaction

736,120

hospitalization days

108

private beds

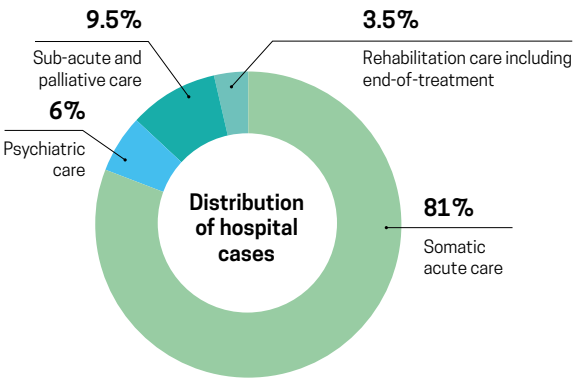

89.5%

actual occupancy rate

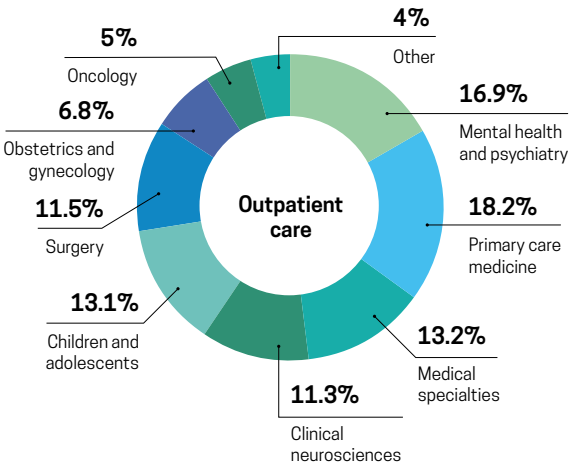

Medical activity

Meeting the needs of a community of 500,000 people, the HUG ensure everyone has access to the best possible healthcare.

HOSPITALIZATION

OUTPATIENT

1,109,781

outpatient care cases

4,248

births (top maternity
unit in Switzerland)

7.1

days (average length
of stay in acute care)

64,134

hospital cases

15,849

chemotherapy treatments
prepared

EMERGENCY ROOM

130,749

emergency room cases,
including 97,521 adults
and 33,228 children

1 emergency case every

4 minutes

75,439

calls to 144

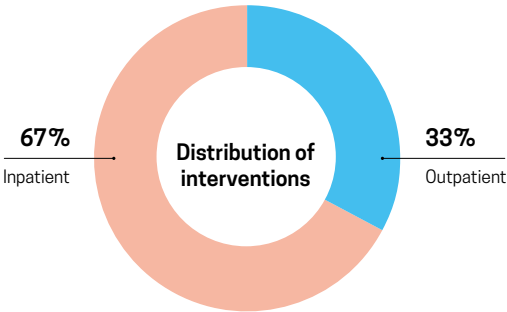

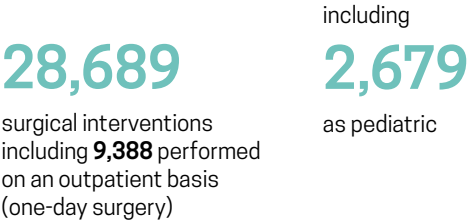

330

flights operated
by the HUG helicopter

Surgical activity

In the HUG one operation in three is an outpatient operation.

Technical platform

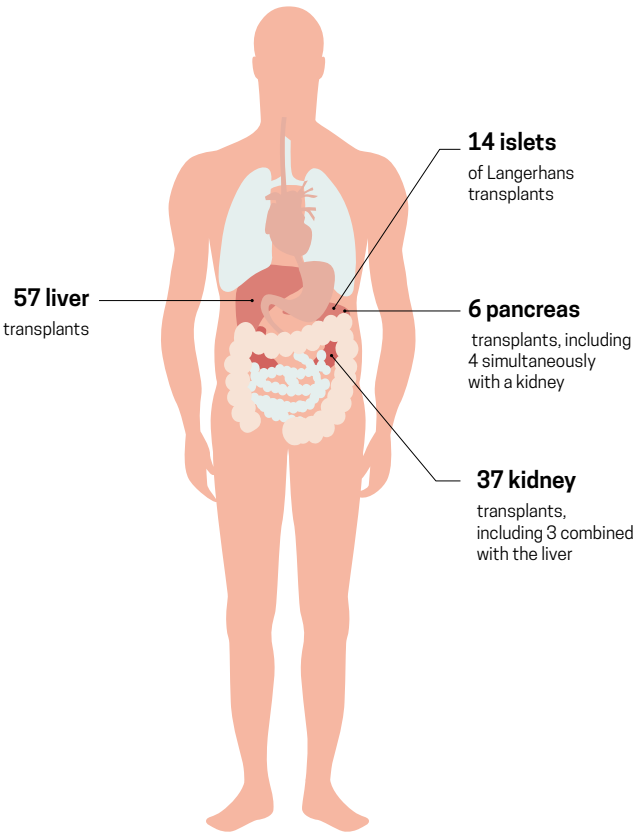

40,885
CT tests

3,225
PET-CT tests

19,567
MRI tests

7,160,655
laboratory analyses

Transplants

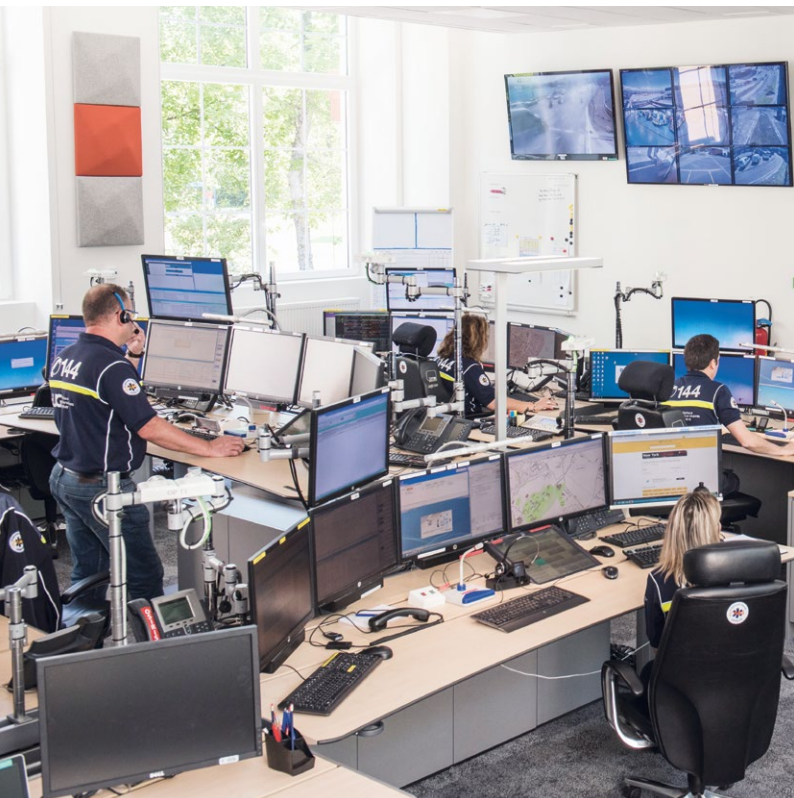

101
patient transplants,
including 11 children

114
transplanted
organs

26
cornea transplants at HUG

Major projects

The HUG are investing to improve reception, comfort and safety conditions.
