

## **SEBASTIAN CARBALLO, MD, DPhil**

After having completed medical school at the University of Geneva, Sebastian Carballo trained in internal medicine at the University Hospital of Geneva (HUG). Supported by the HUG and the Swiss National Science Foundation, this clinical period was followed by basic research in the field of inherited cardiomyopathies, which led to the title of Doctor of Philosophy (DPhil, PhD) from the University of Oxford in 2006.

He reintegrated the service of general internal medicine in 2006. In addition to clinical activities, his current research interests lie in the area of genetic predisposition to complex disease, amongst which are certain cardiovascular diseases.

He co-founded the internal medicine research group and is involved with teaching for both medical students as well as post graduate training.
